The four Condover Parish Councillors met 11/11/19 to agree next steps:

- 1) As the numbers above (19 + 36) were in favour, it was agreed to support infill development.
- 2) In order to have influence over what can be considered as infill it was agreed to support a Condover Village Development Boundary.
- 3) It was agreed that the Village Development Boundary would stay in its current position (where it has been for approximately the last 10 years). However it was also resolved that if significant community benefit could be achieved the Parish Council may consider adjusting the current boundary, with a window for adjustment remaining open only until end of February 2020. After this date the draft Neighbourhood Plan would be finalised for the initial community consultation in spring 2020.

Parish Councillors recognise that ultimately our Neighbourhood Plan needs to be approved by the residents of Condover and as such we are committed to only moving forward with any proposals which they believe can secure that support.
