

CONDOVER PARISH COUNCIL

CORONAVIRUS SUPPORT

During these challenging times, Condover Parish is already seeing a huge amount of community activity, aimed at making sure everyone has what they need, is able to keep up to date with what's going on and knows how to get help. You may receive leaflets dropped through your door giving contact details of neighbours willing and able to get you some shopping or pick up medication and so on. Even if you're OK at the moment, please put this information somewhere safe – you may not need it now but might it be useful at a later date.

The Parish Council will be working throughout with residents, local businesses and key partners such as medical services, Shropshire Council, housing associations and others to try to ensure there is as coordinated a response as possible, not just to helping people stay well, but also helping those self-isolating to cope – and cope well - with such a break in routine.

Where Can You Get Local Information?

Posters

Please regularly look at the Parish Council noticeboards in your village for news updates. If you know someone who is unable to get out and isn't on the internet, please pass information on either by phone or conversations through open windows. Anything on the noticeboard will also be online – please feel able to download and print off information to pop through people's letter boxes.

Parish Council e-Newsletter

The Parish Council will be sending out regular e-newsletters with information, advice and details of local activities. Many people already receive this and the more people who do the better. If you would like to add yourself to the mailing list, please send your name and email address to the Parish Clerk:

condoverpc@gmail.com

If you have information you would like to go into the e-newsletter, please send it to the same email address, or phone it through.

Parish Council Website

There is a link a new Community Support section on the front page of our website: condoverpc.org.uk This will be regularly updated. Again, please share any useful information with people not online and please let the Parish Clerk know if there's anything you would like to be added.

Facebook

There are currently three Facebook options!

Condover Neighbourhood is the Parish Council public Facebook page. This is being changed a bit to focus on Coronavirus support and local updates. It'll be fully active over the next few days

Dorrington Community Support and **Condover Community Group** are both 'closed' discussion and information groups you can join. They both have details about support locally and across the Parish, and if you want to offer help or need local information they can be a good place to start.

Nextdoor

Nextdoor is an online neighbourhood hub, useful for exchanging helpful information about resources and services. The Parish Council will be posting information on here as well. You can sign up by going to nextdoor.co.uk and entering your postcode which will take you to the Condover neighbourhood group where you can enter your contact details.

Again – please share online information with those who don't have access to it.

Over the next week, the Parish Council will pull together a local directory services and resources available for people who are unwell or self-isolating. If you have something to add to this directory, please let the Parish Clerk know.

Contacts

Condover Parish Council Support Co-ordinators

Parish Clerk: condoverpc@gmail.com or phone: 07762 449935 / 01743 718838
